Key Indicator 2.5 Evaluation Process and Reforms

QIM 2.5.1 Mechanism of internal assessment is transparent and robust in terms of frequency and variety. (Theory 500 words)

Response:

There are two different stages in which the internal assessment is carried out in the college at Undergraduate and Postgraduate level in Commerce and Computer department. The examination pattern is prescribed by the affiliating university i.e. SPPU. At Postgraduate level, **Continuous Internal Evaluation (CIE) for 50% marks for each paper in the semester** is conducted by the college. The SPPU has given the freedom to design the structure of CIE, accordingly 50% marks are distributed into **Home Assignment, Tutorials, Research Papers, Presentation and Internal Tests etc.** The students are assigned **Research Project Works** also. Internal Assessment includes term end examination and practical for specialized subjects. At the same time, Internal Evaluation for UG students includes Home Assignments, Tutorials, Field Visits and Seminars. Students of M.C.A. (Commerce) are having one subject including Internship at their Semester VI. Term end exams are held at the end of the first term and practical are carried out under the guidance of concerned teaching faculty.

The schedule of all the internal examinations is mentioned in the **academic calendar** as per the tentative dates at the beginning of the academic year. The exact schedule is displayed on the **central notice board and on college website** well in advance. At the same time **notice is circulated in the classrooms.** Syllabus is duly covered in stipulated time limit by the teaching faculty members so that the students get sufficient time for preparation. **Display Boards providing complete guidelines and rules** regarding the examinations are placed at the entry point to avoid the malpractices and are published on the website. The Continuous Internal Evaluation provides the opportunity for the students to assess their own progress and to find out shortcomings in their studies. Students can get the clear idea about their weaknesses and can concentrate to remove the lacunas up to the final external examinations. The **marks are also displayed** so that they can improve their preparation level. The **performance is discussed** in the classroom which helps them to improve the overall teaching and learning process. **Practical for UG and research projects and research paper presentations for PG students** give students opportunity to improve their communication skills and participative learning. The students are informed well in advance about the pattern of presentations for the practical so that they can be well prepared. The Internal Evaluation marks are forwarded to the university and are included in their final scores. All faculty members complete their syllabus in time and provide preparatory question answers which cover the syllabus and it helps the students for their time management, enhancing preparedness and built up their confidence for final examination.
