Key Indicator 2.6 Student Performance and Learning Outcomes

QIM 2.6.1 Program outcomes, program specific outcomes and course outcomes for all programs offered by the Institution are stated and displayed on website and communicated to teachers and students, (Theory 500 words)

Response:

It is said in the manual of NAAC that "no agency has ever formerly defined the PO's of General Higher Education Three Year Degree Programme in India. Program Outcomes, Program Specific Outcomes and Course Outcomes for all the programs offered by the college are mentioned and displayed on the college website www.cdjcollege.com. The website is properly maintained and duly kept updated. Department wise or committee wise information is provided with details of different programs conducted by the committees and photographs are also displayed on the website. Website provides an introduction of the institute, faculty member details and achievements of students. The college prospectus as well as the website provides the list of programs and courses including the program codes in detail. College is having its own research centre affiliated to SPPU. UG and PG courses are run by the college. Every program is having its own outcome. The basic objective is to provide effective communication skills to the students along with the knowledge of electronic media and current technologies. BBA(CA) is designed with the basic objective of boosting the critical thinking capacity of the student and to improve his social interaction.

There are various Programme Specific Outcomes which pursue the guidelines for the student to highlight the importance of education in commerce faculty. Different programmes are designed by considering the need of the society, which impart the thorough knowledge about the facts of the theory and practical aspects. It inspires the students to think in different and creative directions giving the better outcomes. It helps to develop the awareness about the upcoming trends in the society with the entry of cut throat competitions in every field. Perfection and innovation would only provide the base for the futures.

Every course is having its outcome as per the programme and the syllabus included in the programme. Commerce graduation and post-graduation helps to understand the concepts of commerce and management, current situation of business and market through the changing trends of economy in the society. It has provided the basic knowledge about how to deal with the various problems with the effective solution at hands in time. Students become aware about the business structure and innovative concepts that can be introduced at their initiation. It prepares the students with the advanced knowledge of the techniques and methods of planning and executing the financial aspects at different stages. Computer Graduates and Post Graduates are provided with the sound base through which they can be able to shift to the advanced career in Computer Application. The Computer course enables them to understand the concepts and its application in software development. In this way the programme Outcome, Programme Specific Outcome and the Course Outcome is the inbuilt aspect of the whole curriculum of the institute.

2.6.1 Programme outcomes, Programme Specific Outcomes and Course Outcomes

S. N.	Program	Program Objectives	Program Specific Objectives
1	BBA(CA)	PO1 : Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.	PSO1 The objectives of the Programme shall be to provide sound academic base from which an advanced career in Computer Application can be developed. Conceptual grounding in computer usage as well as its practical business application will be provided.
1	BBA(CA)	PO2 Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.	PSO2 Graduates will be able to communicate effectively in both verbal and written form.
1	BBA(CA)	PO3: Social Interaction Elicit views of others were decreased through evaluation of various Projects and Quizzes developed to provide ease of computer knowledge among local citizens. Work in Multi-disciplinary environments and be responsive to the changing needs to the society	PSO3 Graduates will demonstrate knowledge and understanding of computer science principles and apply these to manage projects and in multi-disciplinary environment.
1	BBA(CA)	PO4: Effective Citizenship Communicate effectively display leadership skills and demonstrate professionalism .Work in multi-disciplinary environments and be responsive to the changing needs of the society.	PSO4 Graduates will show the understanding of impact of computer based solution on the society and also will be aware of contemporary issues
1	BBA(CA)	PO5:Ethics Recognize different value systems of moral Principles that Govern a person's behavior or conducting of an activity.	PSO5 Graduates will demonstrate knowledge of professional and ethical responsibilities.
1	BBA(CA)	PO6: Environment and Sustainability Understand the issues of environment. Generate awareness among them related to environment.	PSO6 Graduates are asked to demonstrate an environmental projects to overcome the issues related to environment and have a detailed overview of environmental issue solutions.

Course Outcomes

S.N.	Course	Course Outcomes
1	FYBBA (CA) Modern Operating Environment And MS Office (101)	The objectives of the Programme shall be to provide sound academic base from which an advanced career in Computer Application can be developed. Conceptual grounding in computer usage as well as its practical business application will be provided.
1	FYBBA (CA) Financial Accounting (102)	To Employ critical thinking skills to analyze financial data as well as the effects of differing financial accounting methods on the financial statements
1	FYBBA (CA) Principles of Programming and Algorithms (103)	This course introduces two different programming styles, imperative and functional programming. Its primary intention is to develop key programming and problem solving skills but it has a secondary aim, which is to build students' confidence in their ability to take on and learn new programming languages within a short space of time
1	FYBBA (CA) Business Communication (104)	To prepare students for the challenges of a society that is shaped by communication. As participants in the program, students develop and integrate knowledge, creativity, ethical practice, and skills. Students also examine and produce work in oral, written, and visual communication and practice skills in group and intercultural communication.
1	FYBBA (CA) Principles of Management (105)	Students will examine the fundamental roles and processes of planning, leading, organizing and controlling that comprise the managers' role. It focuses on the entire organization from both a short and long-term perspective for strategic vision, setting objectives, crafting a strategy and then implementing it.
1	FYBBA (CA) Procedure Oriented Programming using C (201)	Students should be able to: understand the basic components of an object-oriented program including methods and attributes, the distinction between classes and instances, the structures required to write basic algorithms, the components of simple text and graphics based interfaces, the relevance of the design process and basic object-oriented design notation, the applicability and effectiveness of various basic software testing techniques.
1	FYBBA (CA) Database Management Systems (202)	This course is intended to provide you with an understanding of the current theory and practice of database management systems. To help you more fully appreciate their nature, the course provides a solid technical overview of database management systems, using a current database product as a case study. In addition to technical concerns, more general issues are emphasized.

		These include data independence, integrity, security, recovery, performance, database design principles, and database administration.
1	FYBBA (CA) Organizational Behavior(203)	1) To equip the students to understand the impact that individual, group & structures have on their behavior within the organizations. 2)To help them enhance and apply the knowledge they have received for the betterment of the organization.
1	FYBBA (CA) Elements of Statistics (204)	1. To understand the power of excel spreadsheet in computing summary statistics. 2. To understand the concept of various measures of central tendency and variation and their importance in business. 3. To understand the concept of probability, probability distributions and simulations in business world and decision making.
1	FYBBA (CA) E-Commerce Concepts (205)	This course introduces the concepts, vocabulary, and procedures associated with E-Commerce and the Internet. The student gains an overview of all aspects of E-Commerce. Topics include development of the Internet and E-Commerce, options available for doing business on the Internet, features of Web sites and the tools used to build an E-Commerce web site, marketing issues, payment options, security issues, and customer service.
2	SYBBA (CA) RDBMS (Relational Database Management System) (301)	Objectives: 1) Enables students to understand relational database concepts and transaction management concepts in database system. 2) Enables student to write PL/SQL programs that use: procedure, function, package, cursor and trigger.
2	SYBBA (CA) Data Structure Using C (302)	Objective:- 1. To understand different methods of organising large amounts of data 2. To efficiently implement different data structure 3. To efficiently implement solution for different problems 4. To get more knowledge on C programming language
2	SYBBA (CA) Introduction to Operating System (303)	Objective -: 1. To know system programming 2. To know services provided by operating system 3. To know the Scheduling concepts
2	SYBBA (CA) Business Mathematics (304)	1. Understanding basic terms in the areas of business calculus and financial mathematics, Independently solving of business problems.
2	SYBBA (CA) Software Engineering (305)	Objective: This course enables students to understand system concepts and its application in Software development.

2	SYBBA (CA) Object Oriented Programming Using C++ (401)	Objectives: 1. Acquire an understanding of basic object-oriented concepts and the issues involved in effective class design. 2. Enables student to write C++ programs that use: object-oriented concepts such as information hiding, constructors, destructors, inheritance.
2	SYBBA (CA) Programming in Visual Basic (402)	Objectives:- To learn properties and events, methods of controls and how to handle events of different controls. To understand the use of active controls and how to design VB application To learn connectivity between VB and databases.
2	SYBBA (CA) Computer Networking (4 03)	Objective :- 1. To know about computer network. 2. To understand different topologies used in networking 3. To learn different types of network. 4. To understanding the use of connecting device used in network.
2	SYBBA (CA) Enterprise Resource Planning and Management. (4 04)	Objectives -: 1. To know what is ERP. 2. To learn different ERP technologies.
2	SYBBA (CA) Human Resource Management (405)	Objective: To acquaint the students with the Human Resource Management its different functions in an organization and the Human Resource Processes that are concerned with planning, motivating and developing suitable employees for the benefit of the organization.
3	TYBBA (CA) 501 : Web Technologies	Students will be able to program Java classes and methods using a subset of data types and using assignment, method calls, while loops, for loops, and conditionals. The goal will continue to be "coding from example" as opposed to "coding on a blank sheet of paper." Students will learn how to use and manipulate several core data structures: Arrays, linked lists, trees, stacks, and queues. Students will be able to construct simple Java user interfaces and identify where data structures are appearing in those user interfaces. To learn the basic concept of Java Programming. To understand how to use programming in day to day applications.
3	TYBBA (CA) 502 : Web Technologies 	1. Think critically about how to solve a problem using programming 2. Write JavaScript programs using functions, for loops, and conditional statements 3. Use HTML to construct a web page with paragraphs, divs, images, links, and lists; 4. Add styles to a web page with CSS IDs and classes; and 5. Make a web page interactive with JavaScript commands like alert, on Click, on

		<p>Change, adding input features like an image canvas, button, and slider.</p> <p>5. To know & understand concepts of internet programming.</p> <p>6. To understand how to develop web based applications using PHP.</p>
3	TYBBA (CA) 503 : Dot Net Programming	<p>1. Students will able to design web applications using .NET</p> <p>2. Students will be able to use .NET controls in web applications.</p> <p>3. Students will be able to debug and deploy.NET web applications</p> <p>4. Students will be able to create database driven.NET web applications and web services</p> <p>5. This will introduce visual programming and event driven programming practically.</p> <p>6. This will enhance applications development skill of the student.</p>
3	TYBBA (CA) 504 : Object Oriented Software Engineering	<p>1. To Understand concept of system design using UML.</p> <p>2. To understand system development through object oriented techniques.</p>
3	TYBBA (CA) 601 : Advanced Web Technologies	<p>Student is able to understand and use the basics of the XML based technologies</p> <p>Student is able to understand and define and utilize the Web Services / Windows Communication Foundations concept</p> <p>Student is able to describe how Web Services can be used to implement Service Oriented Architecture (SOA)</p> <p>Student is able to design and implement user interfaces based on the AJAX technology</p> <p>To know & understand concepts of internet programming.</p> <p>To understand the concepts of XML and AJAX.</p>
3	TYBBA (CA) 602 : Advanced Java	<p>1. To know the concept of Java Programming.</p> <p>2. To understand how to use programming in day to day applications.</p> <p>3. To develop programming logic..</p>
3	TYBBA (CA) 603 : Recent Trends in IT	<p>1. To introduce upcoming trends in Information technology.</p> <p>2. To study Eco friendly software development.</p>
3	TYBBA (CA) 604 : Software Testing	<p>1. To know the concept of software testing.</p> <p>2. To understand how to test bugs in software.</p> <p>3. To develop programming logic.</p>
4	<p>Course Code :- 101</p> <p>Fundamental of Information Technology SS</p> 	<p>Co</p> <p>To introduce skills related to information technology basics, keyboarding technique, internet fundamentals, network systems, computer ethics, computer maintenance/ upgrading/ troubleshooting, computer applications, programming, graphics, and interactive media.</p>
4	Course Code :- 102 Programming in C	Co

		<p>1.To develop problem solving abilities using a computer</p> <p>2.To build the necessary skill set and analytical abilities for developing computer based solution for real problem</p>
4	Course Code -: 103 Elements of Statistics	<p>Co</p> <p>1. To understand and Master the concepts, techniques & applications of Statistical Methods.</p> <p>2. To develop the skills of solving real life problems using Statistical methods.</p> <p>3. To make students to understand the art of applying statistical techniques to solve some real life problems.</p> <p>4. To gain knowledge of Statistical Computations.</p>
4	Course Code -: 104 Financial Accounting	<p>Co</p> <p>1. To enable the students to acquire sound knowledge of basic concepts of accounting</p> <p>2. To impart basic accounting knowledge</p> <p>3. To impart the knowledge about recording of transactions and preparation of final accounts</p> <p>4. To acquaint the students about accounting software packages</p>
4	Course Code -: 105 Principles of Management	<p>Co</p> <p>1. To provide the fundamental knowledge about working of business organization.</p> <p>2. To make students well acquainted with management process, functions and principles.</p> <p>3. To make the students familiar with recent trends in management.</p>
4	Course Code -: 106 Business Communication	<p>Co</p> <p>1. To understand the concept, process and importance of communication.</p> <p>2. To develop an integrative approach where reading, writing, presentation skills are used together to enhance the students' ability to communicate and write effectively.</p> <p>3. To create awareness among students about Methods and Media of communication.</p> <p>4. To make students familiar with information technology and improve job seeking skills.</p>

Programmes Offered :

S.N.	Programme	Objectives	Programme Specific Objectives
1	Bachelor of Commerce (B.Com)		F.Y.B.COM
		PO1. Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.	Financial Accounting : 1. To impart the knowledge of various accounting concepts 2. To instil the knowledge about accounting procedures, methods and techniques. 3. To acquaint them with practical approach to accounts writing by using software package.
		PO2. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.	Business Economics (Micro): 1. To expose Students of Commerce to basic micro economic concepts and inculcate an analytical approach to the subject matter. 2. To stimulate the student interest by showing the relevance and use of various economic theories. 3. To apply economic reasoning.
		PO3. Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.	Business Mathematics and Statistics: 1. To prepare for competitive examinations 2. To understand the concept of Simple interest, compound interest and the concept of EMI. 3. To understand the concept of shares and to calculate Dividend 4. To understand the concept of population and sample.
		PO4. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.	Banking and Finance [Fundamentals of Banking] 1. To acquaint the students with the fundamentals of banking. 2. To develop the capability of students for knowing banking concepts and operations. 3. To make the students aware of banking business and practices. 4. To give thorough knowledge of banking.
			Marketing and Salesmanship [Fundamentals of Marketing] 1) General Objective of the Paper. a) To create awareness about market and marketing. b) To establish link between commerce/Business and marketing. 2) Core Objectives of the paper. a) To

			understand the basic concept of marketing. b) To understand marketing theories and practical.
			S.Y.B.COM
		PO5.Environment and Sustainability: Understand the issuesof environmental contexts and sustainable development.	Business Communication.: 1. To understand the concept, process and importance of communication. 2. To develop awareness regarding new trends in business communication. 3. To provide knowledge of variousmedia of communication. 4. To develop business communication skills through the developed technologies.
		PO6.Self-directed and Life-long Learning: Acquire the abilityto engage in independent and life-long learning in the broadest context socio-technological changes	Corporate Accounting: 1. To enable the students to develop awareness about Corporate Accounting in conformity with the provisions of Companies Act and Accounting as per Indian Accounting Standards. 2. To make aware the students about the conceptual aspect of corporate accounting.
			Business Economics (Macro): 1. The objective of the course is to familiarize the students the basic concept of Macro Economics and application. 2. To Study the behaviour of the economyas a whole. 3. To Study the relationship among broad aggregates. 4. To apply economic reasoning to present situations.
			Business Management: 1. To provide basic knowledge & understanding about business management concept. 2. To provide an understanding about various functions of management.
			Elements of Company Law: 1) To impart students with the knowledge of fundamentals of Company Law. 2) To update the knowledge of provisions of the Companies Act of 2013. 3) To apprise the students of new concepts

			involving in company law regime. 4) To acquaint the students with the concepts of company law.
			Marketing Management: 1. To provide basic knowledge about basic concepts of marketing and management skills.
			Banking and Finance: To impart the knowledge of: 1. Basic Banking concepts. 2. Elements of Banking Transactions.
			Business Entrepreneurship: 1. To provide basic knowledge of skills required by the entrepreneurs.
			T.Y.B.COM
			Business Regulatory Framework (Mercantile Law): 1. To acquaint students with the basic concepts, terms & provisions of Mercantile and Business Laws. 2. To develop the awareness among the students regarding these laws affecting business, trade and commerce.
			Advanced Accounting: To impart the knowledge of various accounting concepts To instil the knowledge about accounting procedures, methods and techniques. To acquaint them with practical approach to accounts writing by using software package.
			Indian & Global Economic Development: 1) To expose students to a new approach to the study of the Indian Economy. 2) To help the students in analysing the present status of the Indian Economy. 3) To enable students to understand the process of integration of the Indian Economy with other economy.
			Auditing & Taxation: The Study of Various Components of this course will enable the students: 1. To acquaint themselves about the concept and principles of Auditing, Audit process, Assurance Standards, Tax Audit, and Audit of

			computerized Systems. 2. To get knowledge about practical aspects.
			Business Administration II: To acquaint the students with basic concepts & functions of HRD and nature of Marketing functions of a business enterprise.
			Cost and Works Accounting II: 1. To provide Knowledge about the concepts and principles application of Overheads 2. To provide also understanding various methods of costing and their applications.
			Marketing Management II: To acquaint the students with the concepts of Marketing management in present competitive age.
			Banking and Finance II: To acquaint students with the rules and regulations of Banking sector in India.
			Business Entrepreneurship II: To acquaint students with the concepts of ethics to be followed by the entrepreneurs in India.
			Business Administration III: To acquaint the students with the basic concepts in finance and production functions of a business enterprise.
			Cost and Works Accounting III: 1 To impart knowledge regarding costing techniques. 2 To provide training as regards concepts, procedures and legal Provisions of cost audit.
			Marketing Management III: To impart knowledge regarding marketing skills of advertising and packaging.
			Banking and Finance III: To acquaint students with the knowledge of banking policies followed in India and all over world.
			Business Entrepreneurship III:

			To acquaint students with the knowledge of skills required to perform business skills efficiently.
2	Master of Commerce (M.Com)		M.COM PART I
		PO1.Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organization)	Management Accounting The objective of the course is to enable students to acquire sound Knowledge of concepts, methods and techniques of management accounting and to make the students develop competence with their usage in managerial decision making and control.
			Strategic Management To understand the approaches to Strategic Decision Making, Strategic Management Process.
		PO2. Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.	Advanced Cost Accounting: 1. To acquaint the students with the significance of Cost Accounting in Global Competitive environment. 2. To enable students to learn application of different methods of costing in Manufacturing and Service Industry.
		PO3.Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.	Costing Techniques and Responsibility Accounting : 1) To equip the students for designing and implementing cost control, cost reduction programme and different cost system. 2) Relevant Cost Accounting Standard are to be studied 3) Level of knowledge –Advanced Techniques of Costing
		PO4.Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.	Financial Analysis & Control: The objective of the course is to enable students to acquire sound knowledge of concepts, methods and techniques of management accounting and to make the students develop competence with their usage in managerial decision making and control.
		PO5.Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.	Industrial Economics: 1) To study the basic concepts of Industrial Economics. 2) To study the significance and problems of Industrialization. 3) To study the impact of Industrialization on Indian Economy.

		PO6.Environment and Sustainability: Understand the issuesof environmental contexts and sustainable development.	Application of Cost Accounting: 1. To provide knowledge on advanced cost accounting practices.
		PO7.Self-directed and Life-long Learning: Acquire the abilityto engage in independent and life-long learning in the broadest context socio-technological changes.	Cost Control and Cost System: 1. To equip the students for designing and implementing cost control, cost reduction programmeand different cost systems. 2. Relevant Cost Accounting Standards are to be studied.
			Business Finance: To enable students to acquire sound knowledge of concepts, nature and structure of business finance.
			Research Methodology for Business: 1. To acquaint the students with the areas of Business Research Activities. 2. To enhance capabilities of students to conduct the research in the field of business and social sciences. 3.To enable students, in developing the most appropriate methodology for their research studies.4.To make them familiar with the art of using different research methodology.
			Advanced Cost Accounting and Cost System SpecialPaper V. To provide adequate knowledge on Cost Audit Practices and Level of Knowledge of Advanced cost accounting.
			Advanced Cost Accounting and Cost System SpecialPaper VI To equip the students with the knowledge of the techniques and methods of planning and executingthe Management Audit. Level of Knowledge of Advanced cost accounting.
			M.COM PART II
			Capital Market and Financial Services To enable students to acquire sound knowledge, concept and structure of capital market and financial services. Industrial Economic Environment. 1. To study the basic concepts of Industrial Finance. 2. To study the effects of New Economic Policy. 3. To study the impact of Labour reforms on Industries.

2. Courses offered

S. N.	Course	Course outcomes
1	F.Y.B.Com : Financial Accounting.	<ol style="list-style-type: none"> 1. Imparted the knowledge of various accounting concepts 2. Instilled the knowledge about accounting procedures, methods and techniques. 3. Acquainted them with practical approach to accounts writing by using software package.
	F.Y.B.Com : Business Economics (Micro)	<ol style="list-style-type: none"> 1. Exposed Students of Commerce to basic micro economic concepts and inculcate an analytical approach to the subject matter. 2. Stimulated the student interest by showing the relevance and use of various economic theories. 3. Applied economic reasoning to practical theories.
	F.Y.B.Com : Business Mathematics and Statistics	<ol style="list-style-type: none"> 1. Prepared for competitive examinations 2. Understood the concept of Simple interest, compound interest and the concept of EMI. 3. Understood the concept of shares and to calculate Dividend 4. Understood the concept of population and sample.
	F.Y.B.Com : Banking and Finance [Fundamentals of Banking]	<ol style="list-style-type: none"> 1. The students acquainted with the fundamentals of banking. 2. developed the capability of students for knowing banking concepts and operations. 3. Students are aware of banking business and practices. 4. Gets thorough knowledge of banking operations.
	F.Y.B.Com : Marketing and Salesmanship [Fundamentals of Marketing]	<ol style="list-style-type: none"> 1) General Objective of the Paper. <ol style="list-style-type: none"> a) Created awareness about market and marketing. b) Established link between commerce/Business and marketing. 2) Core Objectives of the paper. <ol style="list-style-type: none"> a) Understood the basic concept of marketing. b) To understand marketing philosophy.
2	S.Y.B.Com : Business Communication.	<ol style="list-style-type: none"> 1. Understands the concept, process and importance of communication. 2. Developed awareness regarding new trends in business communication. 3. Got knowledge of various media of communication. 4. Developed business communication skills through the application.
	S.Y.B.Com : Corporate Accounting	<p>Developed awareness about Corporate Accounting in conformity with the provisions of Companies Act and Accounting as per Indian Accounting Standards.</p> <ol style="list-style-type: none"> 1. Made aware the students about the conceptual aspect of corporate accounting 2. To enable the students to have practical application of accounting principles.
	S.Y.B.Com : Business Economics (Macro)	<ol style="list-style-type: none"> 1. The students are familiarized with the basic concept of Macro Economics and application. 2. Understands the behaviour of the economy as a whole. 3. Understands the relationship among broad aggregates. 4. Applies economic reasoning to problems of the economic situations.
	S.Y.B.Com : Business Management	<ol style="list-style-type: none"> 1. Provided basic knowledge & understanding about business management concept. 2. Provided an understanding about various functions of management.
	S.Y.B.Com : Elements of Company Law	<ol style="list-style-type: none"> 1) Imparted students with the knowledge of fundamentals of Company Law. 2) Updates the knowledge of provisions of the Companies Act of 2013. 3) Apprises new concepts involving in company law regime. 4) Acquainted the students with the duties and responsibilities.
	S.Y.B.Com : Business Administration	<ol style="list-style-type: none"> 1. Understands basic knowledge about various forms of business organizations 2. Gets acquainted the students about business environment and its implications thereon. 3. Students aware with the recent trends in business.
	S.Y.B.Com : Cost and Works Accounting	<p>Understands</p> <ol style="list-style-type: none"> 1. Basic Cost concepts. 2. Elements of cost. 3. Ascertainment of Material and Labour Cost.
	S.Y.B.Com : Marketing management	<ol style="list-style-type: none"> 1. Understands basic concepts of Marketing Skills. 2. Students aware of current techniques of Marketing.

	S.Y.B.Com : Banking and Finance	1. Understands basic knowledge of Banking transformation in India.
	S.Y.B.Com : Business Entrepreneurship	1. Understands basic concepts of entrepreneurship skills required to perform effective employabilities.
3	T.Y.B.Com : Business Regulatory Framework (Mercantile Law)	1. Gets acquainted with the basic concepts, terms & provisions of Mercantile and Business Laws. 2. Develops the awareness among the students regarding these laws affecting business, trade and commerce.
	T.Y.B.Com : Advanced Accounting.	Gets knowledge of various accounting concepts To instil the knowledge about accounting procedures, methods and techniques. Acquainted with practical approach to accounts writing by using software package.
	T.Y.B.Com : Indian & Global Economic Development	1) Exposed to a new approach to the study of the Indian Economy. 2) Analyses the present status of the Indian Economy. 3) Understands the process of integration of the Indian Economy with other economics of the world. 4) Acquainted with the emerging issues.
	T.Y.B.Com : Auditing & Taxation	1. Acquainted about the concept and principles of Auditing, Audit process, Assurance Standards, Tax Audit, and Audit of computerized Systems. 2. Gets knowledge about preparation of Audit report. 3. Understands the basic concepts and acquires knowledge about taxation.
	T.Y.B.Com : Business Administration II	Acquainted with basic concepts & functions of HRD and nature of Marketing functions of a business enterprise.
	T.Y.B.Com : Cost and Works Accounting II	1. Gets Knowledge about the concepts and principles Application of Overheads 2. Understands various methods of costing and their applications.
	T.Y.B.Com : Marketing Management II	Acquainted with basic concepts of functions of skills of Marketing.
	T.Y.B.Com : Banking and Finance II	Acquainted with basic concepts of functions of banking transactions.
	T.Y.B.Com : Business Entrepreneurship II	Acquainted with basic concepts of functions of skills of an ethical entrepreneur.
	T.Y.B.Com : Business Administration III	Knows the basic concepts in finance and production functions of a business enterprise.
	T.Y.B.Com : Cost and Works Accounting III	1 Aware of costing techniques. 2 trains as regards concepts, procedures and legal Provisions of cost audit.
	T.Y.B.Com : Marketing Management III	1. Aware of Marketing Management skills. 2. Provide practical knowledge to the students.
	T.Y.B.Com : Banking and Finance III	1. Aware of Banking transaction skills. 2. Provide practical knowledge to the students.
	T.Y.B.Com : Business Entrepreneurship III	1. Aware of entrepreneurship skills. 2. Provide practical knowledge to the students.
4	M.Com I : Management Accounting	Acquires sound Knowledge of concepts, methods and techniques of management accounting and develops competence with their usage in managerial decision making and control.
	M.Com I : Strategic Management	Understands the approaches to Strategic Decision Making, Strategic Management Process.
	M.Com I : Advanced Cost Accounting:	1. Acquainted with the significance of Cost Accounting in Global Competitive environment. 2. Enables to learn application of different methods of costing in Manufacturing and Service Industry.

	M.Com I : Costing Techniques and Responsibility Accounting :	1) Equips for designing and implementing cost control, cost reduction programme and different cost system. 2) Level of knowledge –Advanced Techniques of Costing
	M.Com I : Financial Analysis & Control:	Enable to acquire sound knowledge of concepts, methods and techniques of management accounting and develops competence with their usage in managerial decision making and control.
	M.Com I : Industrial Economics:	1) Understands the basic concepts of Industrial Economics. 2) Understands the significance and problems of Industrialization. 3) Understands the impact of Industrialization on Indian Economy.
	M.Com I : Application of Cost Accounting:	1. Gets knowledge on advanced cost accounting practices.
	M.Com I : Cost Control and Cost System:	1. Equips himself for designing and implementing cost control, cost reduction programme and different cost systems and Relevant Cost Accounting Standards.
5	M.Com II: Business Finance:	Acquires sound knowledge of concepts, nature and structure of business finance.
	M.Com II: Research Methodology for Business:	1. Acquainted with the areas of Business Research Activities. 2. To enhance capabilities of students to conduct the research in the field of business and social sciences. 3. To enable students, in developing the most appropriate methodology for their research studies. 4. To make them familiar with the art of using research methodology for business.
	M.Com II: Advanced Cost Accounting and Cost System Special Paper V.	Gets advanced knowledge on Cost Audit Practices.
	M.Com II: Advanced Cost Accounting and Cost System Special Paper VI.	Equips with the advanced knowledge of the techniques and methods of planning and executing the Management Audit.
	M.Com II: Capital Market and Financial Services	Inculcated students to acquire sound knowledge, concept and structure of capital market and financial services.
	M.Com II: Industrial Economic Environment	1. Solved the basic concepts of Industrial Finance. 2. Expert the effects of New Economic Policy. 3. Skilled Labour reforms on Industries.
	M.Com II: Recent Advances in cost accounting / Case Studies:	The students will have to select a subject from any area of the syllabus of Cost Accounting and get practical exposure by undertaking project work.

3	BBA(CA)	PO7 Self Directed and Life Long Learning Engage in lifelong learning, apply the knowledge judicially and remain continuously employable. Carry out projects and develop new projects in the area of computer science and pursue higher studies.	PSO7 Graduate will recognize the need for and have the preparation and ability to engage in independent and life long learning to participate and succeed in competitive examination and higher studies.

6. FYBBA (CA)

S. N.	Course	Course Outcomes
1	FYBBA (CA) Modern Operating Environment And MS Office (101)	The objectives of the Programme shall be to provide sound academic base from which an advanced career in Computer Application can be developed. Conceptual grounding in computer usage as well as its practical business application will be provided.
2	FYBBA (CA) Financial Accounting (102)	To Employ critical thinking skills to analyze financial data as well as the effects of differing financial accounting methods on the financial statements
3	FYBBA (CA) Principles of Programming and Algorithms (103)	This course introduces two different programming styles, imperative and functional programming. Its primary intention is to develop key programming and problem solving skills but it has a secondary aim, which is to build students' confidence in their ability to take on and learn new programming languages within a short space of time
4	FYBBA (CA) Business Communication (104)	To prepare students for the challenges of a society that is shaped by communication. As participants in the program, students develop and integrate knowledge, creativity, ethical practice, and skills. Students also examine and produce work in oral, written, and visual communication and practice skills in group and intercultural communication.
5	FYBBA (CA) Principles of Management (105)	Students will examine the fundamental roles and processes of planning, leading, organizing and controlling that comprise the <i>managers'</i> role. It focuses on the entire organization from both a short and long-term perspective for strategic vision, setting <i>objectives</i> , crafting a strategy and then implementing it.
6	FYBBA (CA) Procedure Oriented Programming using C (201)	Students should be able to: understand the basic components of an object-oriented program including methods and attributes, the distinction between classes and instances, the structures required to write basic algorithms, the components of simple text and graphics based interfaces, the relevance of the design process and basic object-oriented design notation, the applicability and effectiveness of various basic software testing techniques.
7	FYBBA (CA) Database Management Systems (202)	This course is intended to provide you with an understanding of the current theory and practice of database management systems. You more fully appreciate their nature, the course provides a solid technical overview of database management systems, using a current database product as a case study. In addition to technical concerns, more general issues are emphasized. These include data independence, integrity, security, recovery, performance, database design principles, and database administration.

8	FYBBA (CA) Organizational Behavior(203)	<p>1) To equip the students to understand the impact that individual, group & structures have on their behavior within the organizations.</p> <p>2) To help them enhance and apply the knowledge they have received for the betterment of the organization.</p>
9	FYBBA (CA) Elements of Statistics (204)	<p>1. To understand the power of excel spreadsheet in computing summary statistics.</p> <p>2. To understand the concept of various measures of central tendency and variation and their importance in business.</p> <p>3. To understand the concept of probability, probability distributions and simulations in business world and decision making.</p>
10	FYBBA (CA) E-Commerce Concepts (205)	<p>This course introduces the concepts, vocabulary, and procedures associated with E-Commerce and the Internet. The student gains an overview of all aspects of E-Commerce. Topics include development of the Internet and E-Commerce, options available for doing business on the Internet, features of Web sites and the tools used to build an E-Commerce web site, marketing issues, payment options, security issues, and customer service.</p>

7. SYBBA (CA)

S. N.	Course	Course Outcomes
1	SYBBA (CA) RDBMS (Relational Database Management System) (301)	<p>Objectives:</p> <p>1) Enables students to understand relational database concepts and transaction management concepts in database system.</p> <p>2) Enables student to write PL/SQL programs that use: procedure, function, package, cursor and trigger.</p>
2	SYBBA (CA) Data Structure Using C (302)	<p>Objective:-</p> <p>1. To understand different methods of organising large amounts of data</p> <p>2. To efficiently implement different data structure</p> <p>3. To efficiently implement solution for different problems</p> <p>4. To get more knowledge on C programming language</p>

3	SYBBA (CA) Introduction to Operating System (303)	Objective :- 1. To know system programming 2. To know services provided by operating system 3. To know the Scheduling concepts
4	SYBBA (CA) Business Mathematics (304)	Understanding basic terms in the areas of business calculus and financial mathematics, Independently solving of business problems.
5	SYBBA (CA) Software Engineering (305)	Objective: This course enables students to understand system concepts and its application in Software development.
6	SYBBA (CA) Object Oriented Programming Using C++ (401)	Objectives: 1. Acquire an understanding of basic object-oriented concepts and the issues involved in effective class design. 2. Enables student to write C++ programs that use: object-oriented concepts such as information hiding, constructors, destructors, inheritance.
7	SYBBA (CA) Programming in Visual Basic (402)	Objectives:- To learn properties and events, methods of controls and how to handle events of different controls. To understand the use of active controls and how to design VB application To learn connectivity between VB and databases.
8	SYBBA (CA) Computer Networking (4 03)	Objective :- 1. To know about computer network. 2. To understand different topologies used in networking 3. To learn different types of network. 4. To understanding the use of connecting device used in network.
9	SYBBA (CA) Enterprise Resource Planning and Management. (4 04)	Objectives :- 1. To know what is ERP. 2. To learn different ERP technologies.
10	SYBBA (CA) Human Resource Management (405)	Objective: To acquaint the students with the Human Resource Management its different functions in an organization and the Human Resource Processes that are concerned with planning, motivating and developing suitable employees for the benefit of the organization.

8. TYBCA (CA)

S. N.	Course	Course Outcomes
1	501 : Java Programming	<ul style="list-style-type: none"> Students will be able to program Java classes and methods using a subset of data types and using assignment, method calls, while loops, for loops, and conditionals. The goal will continue to be "coding from example" as

		<p>opposed to "coding on a blank sheet of paper."</p> <ul style="list-style-type: none"> • Students will learn how to use and manipulate several core data structures: Arrays, linked lists, trees, stacks, and queues. • Students will be able to construct simple Java user interfaces and identify where data structures are appearing in those user interfaces. • To learn the basic concept of Java Programming. • To understand how to use programming in day to day applications.
2	TYBBA 502 : Web Technologies	<ol style="list-style-type: none"> 1. Think critically about how to solve a problem using programming 2. Write JavaScript programs using functions, for loops, and conditional statements 3. Use HTML to construct a web page different Tags. 4. Add CSS styles to a web page with IDs and classes. 5. Make a web page interactive with JavaScript commands like alert, onClick(), onChange(), adding input features like an image canvas, button, and slider. 6. To know & understand concepts of Web programming. 7. To understand how to develop web based applications using PHP.
3	TYBBA503 : Dot Net Programming	<ol style="list-style-type: none"> 1. Students will able to design web applications using .NET 2. Students will be able to use .NET controls in web applications. 3. Students will be able to debug and deploy.NET web applications 4. Students will be able to create database driven.NET web applications and web services 5. This will introduce visual programming and event driven programming practically. 6. This will enhance applications development skill of the student.
4	TYBBA504 : Object Oriented Software Engineering	<ol style="list-style-type: none"> 1. To Understand concept of system design using UML. 2. To understand system development through object oriented techniques.
5	TYBBA 601 : Advanced Web Technologies	<ul style="list-style-type: none"> • Student is able to understand and use the basics of the XML based technologies • Student is able to understand and define and utilize the Web Services / Windows Communication Foundations concept • Student is able to describe how Web Services can be used to implement Service Oriented Architecture (SOA)

		<ul style="list-style-type: none"> • Student is able to design and implement user interfaces based on the AJAX technology • To know & understand concepts of internet programming. • To understand the concepts of XML and AJAX.
6	TYBBA 602 : Advanced Java	<ol style="list-style-type: none"> 1. To know the concept of Java Programming. 2. To understand how to use programming in day to day applications. 3. To develop programming logic.
7	TYBBA 603 : Recent Trends in IT	<ol style="list-style-type: none"> 1. To introduce upcoming trends in Information technology. 2. To study Eco friendly software development.
8	TYBBA 604 : Software Testing	<ol style="list-style-type: none"> 1. To know the concept of software testing. 2. To understand how to test bugs in software. 3. To develop programming logic.
