TO,

The Hon. Principal.

C.D.Jain College of Commerce, Shrirampur.

SUB- Electrical safety Audit for C.D.Jaincollege campus.

Ref- Audit done on date 07/12/2022.

Respected Sir,

With reference to the above cited subject, we are very thankful to Hon. Management of C.D.JAIN College, Shrirampur. For selection of us for Electrical audit of your campus.

We visited to campus on Dt- 07/12/2022 for the purpose of audit; during the audit process we visit all our buildings, hostels, library, labs, gymnasium hall, and all campus.

Following points are observed during the electrical safety Audit; please complete the repairing work where it's necessary and priority basis.

1) At the entrance of the college, MSEDCL Transformer situated at the right hand side behind the watchman cabin and L.T.Line originated from transformer and passes through the college campus along with the road and somewhere crossing the roads .its observed that maintenance of the L.T.Line is properly carried out. Please focus on following points to maintain LT Line in proper way

a) Tree cutting to be done to avoid snapping of conductor during the stormy conditions.

b) LT Line lacing guarding not done for road crossings, ask MSEDCL to provide the same.

c) At entrance of college one LT Line stay wire is obstructing the Gate. Please shift the stay by providing alternative to wired type stay.

d)as conductor of the line is very old and current carrying capacity of conductor is low ask MSEDCL to replace the conductor by higher capacity and higher strength.

2) All class rooms checked and observed several common points as safety point of view. Please focus on following points for safety of students and the wealth.

a) Switches and sockets and switch board found in broken (damaged)condition, and not good for electrical operation of switching ON/OFF the fans and tube lights in the class room. please replace the broken switches ,sockets, holders, ceiling rose etc.to avoid any electrical accident.

b) PVC Casing of the wires (patti)is also found not in position, also wires are hanging on walls or on nails in the class room,many of them have a open joints, which are live,please repair the same.

c) Maximum Fans installed in the classroom found there blades ,twisted,removed.please remove such fans to avoid electrical billing expenses as well as any mishap in the class room.

d) Its suggested that provide stickers near all switch boards to aware the student or any person who is doing all these thing ,that do not damage switches ,board, fans, tubes,wires etc. because all they are electrically live parts and may cause heavy flash over due that, may lead in electrical shock.

d) Its observed in the administrative office ph to earth voltage is 227 volts. But neutral to earth voltage observed 65 volts its not safe for electrical equipment's as well as the users, kindly check the earthling of the installation ,neutral of the connection from the pole. Or does new fresh earthling for the office premises, Also ask our maintenance person to check the all neutral and earth connections. Its strongly recommend that provide separate earthling for all computer labs,office,servers etc. make sure that inverter neutral separate from inverter.

e) UPS room –UPS room is nothing but a shed, it has no proper ventilation, exhaust fans, provided due to that room temperature of UPS room found very high at the time of inspection. Please provide proper ventilation ,exhaust fans to the room ,also kept room clean, kept batteries and UPS dust free. its suggest that use cement slab, or asbestos sheets as roof top of the UPS room instead of tin sheets.repair the wiring of the room and panels of DGs,UPS,and MSEDCL. UPS installed in A building is not clean. repaired the installation wiring.

3) After visiting to the campus following points observed for old connection, for safety point of view please do the needful as mentioned below:

a) Install proper capacity 2 Pole / 4 pole MCB to All our single phase /three phase connections of the campus. Also use RCCB s 300 mA. for main to avoide fault leakage current

b) Provide proper Size of earth wire from earth electrode to installation.(flexible wire observed for earthling)

4) Please ask MSEDCL persons to make proper clearance between trees and the line in our college campus, especially in the staff quarter campus, along the roads, along the grounds.

5)Water the earth pits of DG sets. Regularly, check for any loose connection or carbon to the neutral connection of DG.

Kindly please complete the maintenance work, for smooth operation of the electrical equipment's of the institute.

A Report on One Day Industrial Filed Visit

**Place of Visit: - Vardhman Dal Mill Industries,
MIDC, Tal-Shrirampur.**

Date: - 10-02-2024

On Saturday, 10th of February 2024, the students of T.y.bcom Cost and Works Accounting from Chandraroop Dakle Jain College of Commerce, Shrirampur, embarked on a field visit to Vardhman Dal Mill Industries, located in the MIDC area of Shrirampur. The mill, owned by Vardhman Papdiwal and Somesh Papdiwal, specializes in the production of Wheat Flours and Corn Flour. This visit aimed to provide students with practical insights into the operations of a flour mill industry, aligning with their academic curriculum.

During the visit, students were immersed in the entire production process, witnessing firsthand the journey from raw material intake to the final packaging of the products. Quality control measures were highlighted, emphasizing the industry's commitment to maintaining high standards. Additionally, interactions with the owners provided valuable perspectives on the challenges and successes in managing such an enterprise.

The field visit not only enhanced students' understanding of the subject matter but also allowed them to connect theoretical concepts learned at College to the real-world applications at Vardhman Dal Mill Industries. Prof. Kulkarni S.V. and Prof. Yadav P.S., the accompanying teachers, played a pivotal role in coordinating the visit and facilitating insightful discussions.
