Teachers use ICT enabled tools for effective teaching – learning process.(Theory 200 words)

It is always the practice of the teaching faculty to include the enhanced and Innovative teaching learning aids in various programs offered by the college to undergraduate and post graduate levels in Commerce. The college has well equipped classrooms with the projector facilities and all the faculty members are using **smart board facilities** for the students in teaching and learning process. Due to Covid 19 pandemic situation, this academic year is completed through online mode. Soft copy and video lecture recording links are provided to the students which prove to be more effective and has enhanced their interest in learning experience. Teachers use the **PPT's** to teach through Google Meet or Zoom App. **Use of ICT** helps teachers to have more and more involvement of the students in teaching-learning process. Students are guided to prepare the PPT's on relevant topics. College has prepared its own You Tube channel and the guiding videos are posted on the channel by the entire teaching faculty. At the same time teaching faculty take care of not allowing the technology to overcome the quality of teacher as a human being. The teachers try to promote the students to make use of library also.

2.3.2 Percentage of teachers using ICT for effective teaching with Learning Management Systems (LMS), E-learning resources etc.
Response=100%
